

Teaching **architecture** online **tools** and strategies

In the last weeks we have been experimenting different ways of replacing the traditional project reviews with online alternatives. These practices for the comment of visual materials are not the only component of teaching architecture online, but surely are what makes architecture different from other faculties in online and blended learning processes (we all wish we could have blended teaching now). We have proposed a seminar to share the different tools we are using, and discuss how they align with the learning outcomes of each course. We are not imagining a formal seminar, but still we would like to keep it up to an adequate academic level. (You should not necessarily wear a tie, but a white shirt is mandatory). Q&A on chat channel. Video will be recorded.

M.C. Escher, *Drawing Hands*, Lithograph 1948.

International synchronous online seminar
Friday April 24th 2020, 16:00-19:30 (GMT+2:00)

Kindly hosted by the KTH-Royal Institute of Technology

[ZOOM PLATFORM](#), Stockholm, Sweden

Dress code: white shirt

Chairman:

TODOR STOJANOVSKI (KTH, Royal Institute of Technology)

Presentations:

KARL KROPPF (Oxford Brookes University), *Zoom for design tutorials: tools and management*

TERESA MARAT-MENDES (Lisbon University Institute), *Teaching urban form through the lens of sustainability*

MARCELLO BALZANI & LUCA ROSSATO (University of Ferrara) *Teaching architecture inside the point-cloud*

LAMBERTO AMISTADI (Bologna University), *ArchéA: a blended circular teaching/learning programme*

ALESSANDRO CAMIZ (Özyeğin University), *Aligning online review tools and learning outcomes*

GIORGIO VERDIANI (Florence University), *From 1:1 meetings to team collaboration in CAD environments*

MAŁGORZATA HANZL (Lodz University of Technology), *Increasing student's involvement in urban design*

FREDERICK BIEHLE (Pratt Institute), *Simulating space and time with Google Earth*

TOM RANKIN (California Polytechnic University), *Virtual walks in real places*

ELIAS SARANTOPOULOS (Özyeğin University), *Custom tutorials, YouTube channel, peer-to-peer reviews*
