

# LEARNING FROM ETHIOPIA

## A discussion on sustainable local building culture

INTBAU Ethiopia is launching a five-month long online talk series. The program will include talks from academics, researchers and practitioners from Ethiopia and abroad, who will present on a variety of topics, focusing on Ethiopia's built heritage and the traditional building practices within the country. The series seeks to inspire, engage and educate participants about local methods of designing for a better built future. The sessions will be held on the last week of every month from February until June and is free to attend for all interested.
